Concert By

Y. P. Society Friday Night

The Young People's Society of the Arrowwood United Church are presenting a concert in the school on Friday evening, October 30th, beginning at 8 o'clock. It is composed of musical numbers, dialogues, monologues and skits. This promises to be a very enjoyable concert—so be there.

Shouldice News

Mr. Roy Shouldice has left for Calgary where he will reside for the winter months.

A farewell party will be given at the home of Mr. and Mrs. M. C. Norton on Friday afternoon in honor of Miss Hattie Harp, who is leaving shortly for the West. Miss Hattie has been assisting in the Harp household since the death of Mrs. Harp.

Saturday night the Shouldice Community Hall was the scene of a farewell reception for the Thompson family who are leaving the district; the social committee were responsible for its organization. Cards and Dancing were enjoyed by all, lunch being served at mid-night. Mr. Mowatt made the presentation of a suitable gift to the honored guests.

Shouldice was the scene of an accident on Saturday evening, Oct. 17th. The Pioneer agent, a "young Scot" was so overjoyed to hear of the victory Aberdeen made over their opponents that day at soccer "that he jumped in the air" and on the rebound fell helplessly on the plank side walk in Mickey's garden, to discover a badly sprained ankle. Neighbors were soon on the job and with the aid of forceps and a crowbar were able to pry the young lumberman from his senseless moorage into a big rocking chair where first aid was promptly and competently administered.

WEDDINGS

DeWitt-Haig

A quiet wedding of local interest took place at St. Stephen's Church, Calgary, on Tuesday afternoon, October 27, 1931, when the Rev. Mr. Wilkinson officiated in the marriage of Barbara Haig to Mr. J. M. DeWitt. They were attended by Mr. and Mrs. Walter Steiner. Mr. and Mrs. DeWitt are well known, residents of this district and the Resource joins with their many friends in wishing them a long and happy life.

The fall of snow last Monday morning gave one the feeling that summer was over and winter had set in; however the appearance of Sol at noon soon changed the appearance of things and since then have been enjoying a relapse of Indian Summer.

School Notes

The third meeting of the Arrowwood High School Literary Society was held Friday, October 23, with the President, Ruby Ward, in the chair.

During the business meeting Boynton Christenson was elected Editor-in-Chief of the High School Paper. We will expect Boynton to assist the editor of this column in writing a few interesting articles on school news.

An interesting program followed of which the best number was a dialogue "Managing a Husband".

The program:

1. Violin Solo - Mr. C. E. Johnson, accompanied by Miss Victoria Barron.
2. Vocal Solo - Miss Joanne MacLeod, playing her own accompaniment.
3. Piano Solo - Miss Ruby Ward.

"Managing a Husband" - Ruth Brubaker, Mildred Kauffman, Willa Lieth, Evelyn Burris.

Examinations! One would almost think that it was June. The best papers so far were: Algebra 1, 100 made by Beth Ellis, and 90 in Chemistry made by Victoria Barron.

The new basketball ball has arrived and boy will we play Basketball now.

Latin.
They are dead who wrote it!
They are dead who spoke it!
They will die who learn it!
Oh Blessed Death! they surely earn it.

The Grade 7 and 8 room held their Halloween party last Friday night at the school. The program was commenced with the judging of costumes. After much deliberation the judges, Mr. McCullough and Mr. Mason, selected Shirley Ward as a Gypsy, the best dressed girl, and Leonard Williams as the best dressed boy. Following the judging of costumes, games were played in the basement. Before entering the dining room all those present were made quite familiar with the spooky way, and each received his fortune from Professor Arthur Saunders. In the dining room which had been decorated for the occasion, Margaret Richards, Clara Service, Betty Kelly, and Shirley Ward had prepared a fine supper. At the supper table the fortunes were read and prizes awarded. Much credit is due Arthur Saunders and Teddy Weins for the excellent program of games which they arranged.

Ladies' Aid of Brethren Church

The Ladies' Aid of the Brethren Church held an all day meeting in the basement of the church on Thursday. The annual election of officers resulted as follows:

Pres.—Mrs. E. C. Bowman.
Vice-Pres.—Mrs. Lawrence Larsen.
Secretary—Mrs. J. P. Beagle.
Treasurer—Mrs. Edith Easton.
Supt.—Mrs. R. L. Culp.
Supt. of Sunshine—Mrs. J. S. Culp.

Miss A. MacPhail

to Lecture in Gleichen

Elsewhere in this issue is an advt calling the attention of the residents of this district to a lecture to be delivered by Miss Agnes MacPhail at Gleichen on Tuesday, November 3rd at 7.30 p.m., in the Gleichen Community Hall. There will be no admission charge.

The subject of Miss MacPhail's address will be "Canada and the Disarmament Problem." Miss MacPhail is the only woman member in the Canadian House of Commons, and as a delegate representing Canada at the League of Nations in Geneva, she is eminently qualified to speak on this subject, which is of special interest at this time. The World Disarmament Conference has been called for February, 1932, and not only member-states of the League of Nations, but non-member states such as the United States and Soviet Russia will be represented. While Canada has but a skeleton defence force and is not so greatly concerned in the technical aspects as an exporting nation, Canada is greatly interested in any step towards the reduction of the financial burden of armaments throughout the world.

Miss MacPhail has made a study the subject of peace and disarmament one of her strongest interests and both in the House of Commons and on the public platform has frequently dealt with it. She is also honorary vice-president and member of the League of Nations Society in Canada. Miss MacPhail was elected to the House of Commons in 1921 and re-elected in 1925, 1926 and 1930.

An Indestructible Fence

National Crop Improvement Service.
One of the greatest enemies to every farm are bugs and weeds, but if you have a properly constructed fence, you can burn out the weeds along the fence lines without damage and rid yourself of both pests. Besides your fence is grounded wherever a steel post is used and danger to your live stock from lightning is greatly reduced," says Mr. R. S. Rider, president, Canadian Steel & Wire Company.

"The use of steel fence posts has become so general during recent years that there is no longer any question but what they are the solution of the fence post problem."

"While the wooden fence post still has many friends, it is usually not as strong because the labor in making that post and the comparatively short life of the post, makes it much cheaper to buy a steel post of the proper size for the work required of it."

"The steel post when properly made, is heavily galvanized inside and out with an extra heavy coat of galvalume zinc below the ground line. There is another economy and that is that you can drive the steel posts without digging the holes, and the bottom of the post automatically spreads, making a wedge-shaped anchor to hold the post firmly in place."

October School Report for Grades 7 and 8

Nationalist Majority 491; 472 Conservatives Elected

Six hundred and eleven out of 615 have been returned to the House of Commons. The remaining four results, London university, Inverness and the two to be elected by the English universities may not be known for some days. The party standing is as follows:

Conservatives	472
National Labor	13
National Liberal	66
Labor Party	50
Lloyd George Liberals	5
Independents	5

Prime Minister MacDonald and Rt. Hon. Stanley Baldwin, along with the leading British newspapers, warn that the result of the British general elections was a triumph of the National government—not of any one party.

Round About Town

The P.T.A. dance advertised for November 7th has been postponed until November 14th.

Miss Agnes Bond of High River, has accepted a position in the local telephone office.

Mrs. R. W. Terichow of Shouldice is visiting at the home of Mr. and Mrs. M. L. Terichow.

Mr. C. F. Culp and family, accompanied by Mr. J. P. Beagle motored to Calgary on Tuesday, returning the same day.

The big six-wheel truck of Larsen Implements seems to keep on the go. It made another trip to Lomond today after heavy freight.

Miss L. Archambault arrived recently from Ensign and is staying at the home of her Uncle and Aunt, Mr. and Mrs. E. D. Archambault. While here she is prepared to do finger waving.

Y. P. Society

Re-organize

The young people of the Arrowwood United Church re-organized for the coming year at a meeting held on October 14th. The Society has obtained Mr. Gilbert and Mrs. Hales as leaders, each taking charge of alternate meetings. The group intend to study devotional topics and also group leadership. Officers elected were:

President—Miss I. Mackie.
Vice-Pres.—Miss I. MacLeod.
Sec'y.—Mr. H. McCullough.

Surprise Party for Miss Irma Arney

On Friday, October 23rd a very delightful surprise party was held at the home of Mr. and Mrs. L. Arney, on the occasion of Irma's birthday. The guests were conveyed to the home by cars and Irma was found to be in bed when they arrived so it was a real surprise. The evening quickly sped with games, contests and a hair-raising visit to the Dungeon of Horrors, where ghosts, witches and black cats made it a very thrilling adventure. The evening was topped off with a very dainty lunch and the three-tier birthday cake was made by Miss Willa Lieth and Miss Evelyn Surtees, who also conducted the program and the success of the evening is credited to them.

Armistice Holiday to be Compulsory

Armistice Day, November 11 will be observed throughout Canada as a public holiday, according to the Act passed at the last session of Parliament regulating observance of the cessation of hostilities on November 11th, 1918. The occasion will be celebrated in the same manner as Canadian people celebrated Labor Day, Dominion Day and other national holidays, according to the meaning of the Act, it was stated by the secretary of state.

Why Worry?

Thousands of bushels of wheat will now go into farm bins this fall, if prices do not improve. Anyway, it makes first class porridge, boiled whole and warmed in the morning. Wheat porridge, potatoes and sauerkraut should keep the family alive and thriving during the long winter ahead.

Big Game Season Opens November 1st

Open season for moose, deer and Caribou shooting commences on November 1st and continues until December 14th. Each hunter will be permitted to kill one male deer, one male moose and one caribou. The season for fox, mink, fisher marten, red squirrel and other also opens on November 1st and continues until the end of December.

Witches: Toads: Snakes

What recollections October 31st brings! How we sons of Eve loved those apples from the neighbor's orchard although we had plenty of better fruit in our cellar! But "stolen fruit" has a particular flavor. And oh! the inconvenience we imposed upon our elders, most of it, thank goodness, harmless but in a few instances carried too far.

And what was it all about? Our forefathers believed in witches, goblins, spirits and elves. It was the harvest season and winter was ahead. So perhaps they did get into the granaries—four legged ones, yes, and real human ones too. Anything that could not be accounted for directly was done by fairies, good or bad. And they were all busy at Hallowe'en.

While the pranks continue the superstition has passed. But let us beware of the ghost in the family closet. It's not wise to turn up our noses and despise our ancestors. Whether or not man descended from monkeys, his progenitors were a superstitious-burdened people and Hallowe'en is a constant reminder of the fact.

UNUS SOLUS.

Wheat Outlook
Is Promising

An increase in shipments of 2,700,000 bushels from October 1 to 21, and an increased flow of grain through the district following steadier wheat prices, were statements made by Canadian Pacific officials.

Although stating that the total number of bushels shipped this year shows a decrease, a gain has been recorded in the October period when 6,945,900 bushels were shipped as against 4,137,000 bushels for the same period a year ago.

At the present time, it was stated, more men are being employed and more shipping space utilized than at any time during the past two years. Wednesday 374 cars containing 499,200 bushels were loaded as against 142 holding 184,600 bus. for the same day a year ago.

30,000 Canadians
Placed on Farms

Through the co-operation of the Department of Immigration and Colonization and the colonization branches of the C. N.R. and C.P.R., approximately 30,000 Canadian men, women and children have been placed on farms, either as laborers or owners, during the year ended September 30, 1931.

Beneath the spreading chestnut tree

The village smithy snoozes;
No nag, since 1923,

Has been to him for shoes.

ADENOIDS

Adenoids are growths which are sponge-like in consistency, and which develop in the passage which joins the nose and throat. They occur at all ages, from early infancy to adult life, but they are most commonly found in young children.

The presence of adenoids is frequently responsible for what appears to be a chronic head-cold, with a considerable discharge from the nose. The child who has adenoids will likely be bothered with a cough and snuffles during the cold weather.

Because of the location of the adenoids, they may obstruct the Eustachian tubes which connect the middle ear with the throat. Adenoids are the most common cause of ear-ache in young children. If the condition is not treated, it frequently leads to disease of the ear and permanent loss of hearing.

Breathing through the nose is the right and way to breathe. If the adenoids are large, the child will become a mouth-breather because their growth will block the nasal passage and prevent breathing through the nose. Certain serious results follow. To begin with, the child has the uncomfortable feeling associated with a head-cold.

Continued mouth-breathing, which means that the nose is not being used, results in a high-arched palate and the deformity of the chest known as "pigeon-breast", and almost surely there is some disturbance of the proper, orderly arrangement of the teeth in the

upper jaw.

In advanced cases, the child has a characteristic appearance—the adenoid face. The open mouth, the small pinched nostrils and thickened upper lip all give a fish-like, stupid appearance. The voice may have a nasal twang and, in young children, bed-wetting may be a symptom.

The spongy adenoid growth provides an excellent breeding ground for germs. This is helped by the mouth-breathing which brings unprepared air into the throat and tends to dry out the tissues and so lower their resistance.

The child with adenoids may seem to be mentally dull, and this is not to be wondered at when it is remembered that his head feels stuffed up, his hearing is interfered with, he likely suffers from ear-ache, and he is quite possibly being poisoned by germs which are present in the adenoid growth.

Any child who is a mouth-breather, or who suffers from repeated colds or ear-ache should be examined to see if adenoids are responsible, and if so, to have them removed. The sooner they are removed, the better it is for the child.

No child need suffer the handicap and danger of adenoids. Their complete removal is a simple surgical procedure and is the only suitable treatment.

Clean the Spark Plugs

Did you know that a spark-plug can be shorted simply by drawing an unbroken line with a lead pencil from the base terminal to the steel shoulder? That's what O. C. Rhode, chief engineer for Champion, says. And, because of this, he says that cleaning the porcelain will solve 80 per cent of hard starting trouble. It will only take about two minutes to preform this little service for your customers—and it may help a lot.

The cheerful live longest in years, and longest in the esteem of their fellowmen.

Some people prepare as carefully for failure as others do success.

The Way of Life

Sometimes I wish that I might do

Just one grand-deed and die.
And by that one grand deed reach up

To meet God in the sky.
But such is not Thy way, O God
Not such is Thy decree;
But deed by deed, and fear by fear,

Our souls must climb to thee
As climbed the only Son of God
From manger unto cross,
Who learned through tears and bloody sweat,

To count this world but loss;
Who left the virgin mother's arms
To seek those arms of shame,
Outstretched upon the lonely hill

To which the lonely darkness came.
As deed by deed and tear by tear,

He climbed up to the height
Each deed a splendid deed, each tear

A jewel shining bright.
So grant us, Lord, the patient heart,

To climb the upward way.
Until ye stand upon the height
And see the perfect day,

—G. A. Studdert-Kennedy

DIFFICULTIES

By Edgar A. Guest

Stick to it, boy, when the battle is hard,
Stick to it, Lad, when the going is rough,
The proof of a Fighter is how he is scarred,
To vanquish a Coward one blow is enough.
Just keep this in mind as you see the task through

It's the commonplace things that are easy to do.

The thousands can follow the pathway of one,
The millions flock in when the fight has been won,
There are many to go where another has gone
And many to do what another has done,
But to blaze a new trail there are only a few;
It's the commonplace things that are easy to do.

Don't ask for the easy and commonplace tasks,
It's the difficult problems which bring men to fame,
Rejoice in the courage the day's trial asks,
For if you succeed men shall honor your name.
Be glad in the choice which has fallen to you,
To battle with something not easy to do.

Thomas Edison Buried Beneath Giant Oak Tree

West Orange, N. J., Oct. 22.—Thomas Edison lay, Wednesday night, in the darkness of a simple grave in the shadow of a great oak tree in Rosedale cemetery. His burial marked the 52nd anniversary of his perfection of the incandescent lamp.

Last tribute over his body was paid as he lay in the drawing room of the spacious mansion in which he lived for many years.

"He is humanity's friend," was its end.

Surrounding him were the friends and flowers he loved. Listening in a room upstairs to which ceremony came by concealed amplifiers, were his wife, his children, and his grandchildren; Henry Ford and Harvey Firestone; Mrs. Herbert Hoover, and a few very close friends.

The grief and respect of the nation was left to be expressed in an organized plan sponsored by President Hoover for extinguishing for one minute, at 10 p.m. (E.S.T.) the billions of incandescent electric lamps which light its way because of Mr. Edison's genius.

Feed Hogs to Finish

In a review of the hog market situation as it exists at the present time A. A. MacMillan, Chief of the Sheep and Swine Division, Dominion Live Stock Branch, states that there is no justification for the practice which has been too general this season of trying to beat the market by selling off lightweight unfinished hogs to gain a few cents per pound at current prices. As he sees it the principal effect of such practices has been to demoralize the market and force prices much below what they otherwise might be.

With Canadian hog prices drastically realigned both to suit domestic conditions and export market prices the common sense practice to use at the present time, according to Mr. MacMillan, is to finish hogs up to the proper market weight, around 200 pounds. This he believes is the one effective way in which to develop a steady hog market to regularize marketings and at the same time to improve quality.

Man's Responsibility

Premier Bennett in a recent address is reported to have stated that nothing but the grace of God could get Canada out of her difficulties. At a time when starvation and want are stalking the earth in the midst of plenty, it seems to us that the failure is man's. Man has been richly endowed and given every opportunity to distribute the good things of life equitably and so promote the highest well being of his kind. The evils of the present situation are man-made.—The U.F.A.

The planet, Neptune, was discovered in 1846.

Rosier Outlook Is Seen as Wheat Prices Better

Edmonton, Oct. 23. — More favorable wheat prices as registered in the last few weeks have given a rosier outlook for the future, according to a statement by Premier J. E. Brownlee, in addressing a local service club Thursday.

The increased purchasing power of the West as a result of the more favorable prices gave an entirely different aspect to the situation. He felt confident the bottom of the depression had been reached and that the economic situation would show a gradual improvement.

"The money is here," declared the Premier, in speaking of conditions. "One of the things that has amazed me is the ability shown by Albertans to carry on in face of difficulties."

Alberta Cattle In British Market

About 6,000 head of cattle have been shipped out of Alberta since the season opener last spring, J. J. Bowlen, M.L.A. said Tuesday night. With government assistance in railway freight rates partially setting off the pound sterling depreciation, prices in England are still better than in Alberta, he said. About 22,000 head have been shipped out of Canada to the Old Country. Shipments from Alberta last month totaled about 1000. Alberta ranchers are still shipping to England. Shipping has been intensive ever since the season opened, he said, the only trouble being lack of space. If it had not been for the English market, the situation so far as Alberta ranchers are concerned, would have been serious, Mr. Bowlen said.

Mr. Justice W. M. Martin

ONE of the most important committees of the World's Grain Exhibition and Conference is known as the Citizens' Committee. This committee acts as a medium through which matters pertaining to the mutual welfare of the Exhibition and Conference and the city of Regina (where the world-wide event is to be held in 1932) are carried to the organizations having representation on the committee.

Mr. Justice W. M. Martin, of the Court of Appeal of Saskatchewan, is chairman of the citizens' committee. He was born at Norwich, Oxford County, Ontario, and received his education at the Exeter Public School, Clinton Collegiate Institute, Toronto University and Osgoode Hall.

Moving to Regina in 1903, Judge Martin engaged in the practice of law. He was elected to the House of Commons as member for Regina in the elections of 1908 and 1911. In 1916 he was called upon to assume the Premiership of Saskatchewan and also took the portfolio of education. He became a member of the Court of Appeal of Saskatchewan in 1922.

World's Grain Exhibition is Postponed

Will be Held at Regina from
July 24 to August 5, 1933

The world's grain exhibition and conference will be held in Regina July 24 to August 5, 1933. At a meeting of the executive and finance committee of the forthcoming international show held in Regina Friday, these dates were decided on. The committee will at once proceed with plans for the carrying out of the exhibition and conference in 1933.

The government of Canada will be asked by the executive committee to notify government of all countries of the postponement and those countries who have already accepted the invitation to participate in the undertaking will be requested to allow their acceptance to stand for 1933.

The committee passed a resolution recommending that the awards committee include a class in the prize list for such wheat as the white variety of Australia.

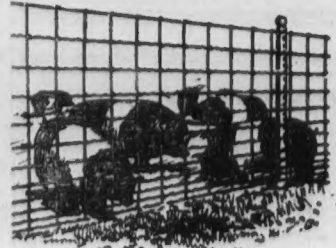

A Heavy Toll

There were 1,200 deaths resulting from automobile accidents in Canada for the year 1930, a decrease of ten compared with the year 1929, a report issued by the Dominion Bureau of Statistics states. August is

the peak month, 181 occurring in that month as against but 30 in January.

Montreal led the cities of Canada in the number of fatal automobile accidents with 136, a considerable decrease from the 151 reported in 1929, however. Toronto was second with 67, Vancouver third with 43 and Hamilton fourth with 41 accidents. Other cities had 30 or fewer fatal accidents during the year.

Hog Tight Fences

(National Crop Improvement Service.)

"A hog naturally is as clean as a dog or horse. While he loves to wallow when flies are bad and conditions are against him, he also loves to be clean and will bathe in clean water the same as any other animal," says Mr. R. S. Rider, president, Canadian Steel & Wire Co.

"Any farmer who is in the hog business, knows that it does not pay to be chambermaid to a hog any more than absolutely necessary and that a hog in order to be healthy, should harvest his own crops."

"So whether pasture of rape or corn is to be utilized, the foundational necessity is a fence which will hold the hog where you put him and not allow him to do damage to other crops."

"In every rotation the field should be so fenced that the hogs can do all of the harvesting possible."

Happenings in and
Around Arrowwood

Mr. and Mrs. H. Brown are
visitors in Calgary this week.

You will miss a lot of fun if
you don't attend the Y.P.S.
concert Friday night.

Mr. Dan Vldar has purchas-
ed a new Fordor sedan from
the Leonard Motors.

Mr. H. Eaton returned to
Arrowwood last Sunday from
Lethbridge.

Miss I. Mackie attended the
Dumbells at Calgary last Mon-
day evening.

M. L. Terichow and Russel
Terichow were business visitors
in Calgary on Tuesday.

Lawrence Larsen made a
business trip to Blackie Wed-
nesday afternoon.

The Messrs. Rusel and Cecil
Culp, and J. P. Beagle spent
Monday on a hunting excursion
around Lake McGregor.

W. McKinley returned last
week from Three Hills where
he had been assisting in the
harvest field.

Martin McInenly celebrated
his thirteenth birthday last
Monday by entertaining a num-
ber of his young friends to a
turkey supper.

Miss Agnes MacPhail, M.P.,
will lecture in the Gleichen
Community Hall at 7.30 p.m.
on Tuesday, Nov. 3rd. Sub-
ject "Disarmament."

Mr. Fike, the milkman, has
been seen delivering milk
around the town by auto the
last few days. It seems to
speed up Mr. Fike's work.

Several from Arrowwood at-
tended the house warming
dance in the Mossleigh Com-
munity Hall sponsored by Mr.
L. Abernethy of the Searle
Grain. All report a crowded
program and that "Scotty" is a
royal entertainer.

Mr. J. S. Culp will be the
speaker at the Brethren Church
next Sunday, Nov. 1st. At 11.30
he will speak on "The First
Disciple." At 7.30 p.m. the sub-
ject: "Eternal Life Not Won
Without Toil." Note change
in time of evening service.

Mr. and Mrs. J. S. Culp and
Mr. and Mrs. J. P. Beagle and
daughters were Sunday guests
at the home of John Rhodes,
near Brant.

Mr. and Mrs. Gaylen Jones
made a pleasure trip to Calgary
Wednesday.

While Mr. A. E. Starling was
cranking his car last Monday
Morning the engine back-fired
and the crank caught him in
the leg, inflicting a wound
which required some stitches.
Mr. Starling is able to be
around and is as happy as ever.

Here and There

"What could we farmers hope to
accomplish without our railways?"
asked a Kentucky agriculturist
recently. He added that no agency
had contributed more to the
prosperity of the farmer than the
railways.

"I have never yet found any
place where the salmon fishing
could compare with New Brun-
swick," said Arthur Train, well
known novelist, speaking at a camp
dinner given in his honor recently
by the New Brunswick Tourist
Travel Bureau.

Encouragement came to western
Canada's farmers and agricul-
turalists with the return to normal
temperatures and varying rainfall
of mid-July. In the drought areas
of Manitoba and Saskatchewan
and to a less extent in Alberta very
great benefit has been felt.

Authentic rainbow trout weigh-
ing 7½ lbs. were taken recently
in the French River six miles
below the bungalow camp, the
first ever caught there according
to the oldest guide. It was caught
by E. A. Farintosh, of New York,
a yearly guest at the camp.

Since the split up of Canadian
Pacific Railway common stock into
four for one, this issue has taken on
great popularity with the general
run of investors. Between Septem-
ber and June 1931, the number of
these increased from 21,186 to
34,872, an increase of 13,686.

Over 250 members from Rameses
Temple, Toronto, went to Cleve-
land recently by Canadian Pacific
special to attend the annual con-
clave and imperial council of the
Ancient Arabic Order of Nobles of
the Mystic Shrine. This convolve
was held last year in Toronto.

A great influx of tourists is
coming into the Maritime Pro-
vinces this year, the chain of the
Canadian Pacific hotels at Yar-
mouth, Digby and Kentville pro-
viding strong influences in promoting
the traffic. The ten-day all-
expense Canadian Pacific tour to
the Toronto Exhibition next month
is also drawing much attention in
the Maritimes.

Grain exports from the port of
Vancouver this year will probably
exceed 75 million bushels. Up to
June 4th wheat shipments amount-
ed to 65,331,501 bushels. Accom-
modation for deep sea vessels has
increased from 12 piers in 1920 to
24 piers at the present time and
elevator capacity has increased
from 1,240,000 bushels to 16,205,-
000 bushels.

An Indian Schoolboy's band of
which the leader was also a school-
boy and in which the instruments
were mouth organs, gazooks and
other noise-makers was one of the
features of Indian Park at Banff
which opened July 21. This was
counterbalanced by a septua-
genarian Chief's Choir of 18 chiefs
and ex-chiefs who rendered airs
taught by the first western mis-
sionaries back in the 1860's long
before the Canadian Pacific Rail-
way penetrated the mountains.

Six First Aid championships and
five second places fell to Canadian
Pacific Railway teams across Can-
ada according to the recent annual
report of the St. John Ambulance
Association. Of these, three firsts
and one second were captured by
the Railway's Montreal Police
Team. The second was in the
coveted Montclair Trophy,
representing the championship of
Canada for all runners in which
they were only five points behind
the winners Royal Canadian Army
Medical Corps of Kingston Ont.

will sell it for you

WAGIN' TUNG

Vol. 1, No. 11 Arrowwood, Oct. 29, 1931 Items for Thor

We Are on the Mend

For the past eighteen months or more we have
been looking around nearly every corner for prosperity.
This search has been so intensive that it appears to us
that there is only one corner left and that corner is
looming up just ahead. Wheat prices are looking up,
stocks and bonds are improving and the recent election
beyond the Atlantic, to us, are all good omens.

In past issues of the
'Waggin' Tung' we have
told you some about the
Letz Roughage Mills. Re-
member you will eventual-
ly pay for a Letz whether
you buy one or not, by
the saving in feeds and the
gain in weight that your
livestock will put on eating
'Letz' cut feeds.

In one operation the
Letz will do four things:—
FIRST, it cuts and recuts
any hay, sheaf grain or
other roughage; SECOND,
it crushes and grinds all
small grains, fine, medium
or coarse; THIRD, depend-
ing on how the machine is
set, it will either mix the
cut roughage and ground
grain together or it will
grind the recut roughage
then mix the ground
roughage with the ground
grain, and then, FOURTH,
deliver the finished, mixed
grain to any desired place
by means of the exhaustor
fan and piping. The Letz
is made in three sizes, to
suit your power unit and

pocketbook. Space does
not permit us telling you
all the features of the Letz
at this time. An inquiry
will bring full informa-
tion.

Money saved these days
is like money earned. We
are making trucking trips
quite frequently in and
out of the city with part
loads. If you have some-
thing to haul, livestock or
whatever it may be, it
will pay to see us for re-
duced prices to help make
up our loads.

Are you keeping a close
eye on that old tire? Will
it safely make another
trip for you? Replace it
with a new "Firestone" be-
fore something happens.

A five-year-old son awoke
at 3 a.m. and said to his
mother, "Mommy, tell me
a story."

"Hush, dear," replied his
mother, "papa will be home
any hour now and tell us
both one."
